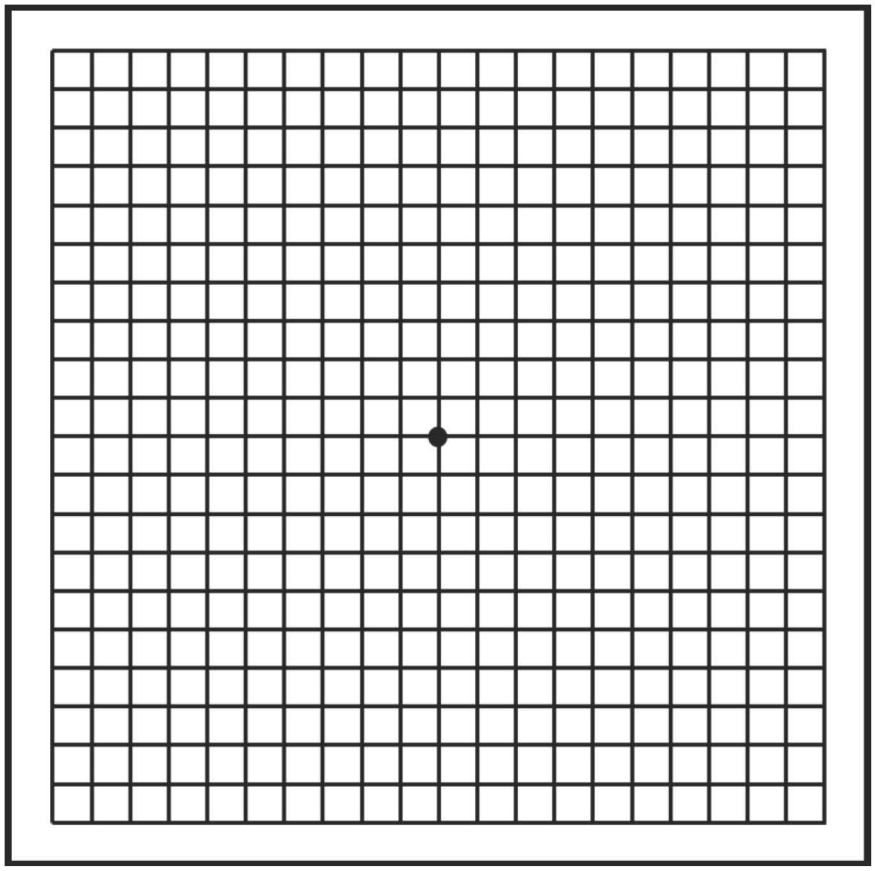
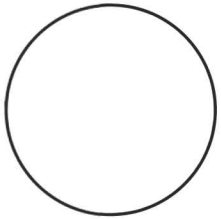
Amsler Grid



When printed or displayed, this should correspond to the size of a loonie ($1) coin.



Test under normal room lighting with reading glasses.
Hold the Amsler Grid 30 cm (12 in) from your eyes.
Test each eye separately.
Look directly at the dot with your uncovered eye and keep your eye focused on it.
Do any of the lines in the grid appear wavy, blurred, or distorted?
Are there any dark areas or missing spots in the grid?
